

MiAI Law Litigation Workflow

MiAI Law Operating System

1 Summarise

Quickly understand the document

- Cases, pleadings and affidavits
- Contracts for commercial disputes
- Deeds of Settlement

2 Lite Research

Get a quick view of the legal landscape

- Issues, claims, defences, risks

3 Deep Review

Delve deeper into key issues

- Deep case research
- Legislation and procedural analysis
- Deep contract review and Audit for ambiguities and internal clashes

4 Law Check and Appeal Check

Test your work
Check your opponent's submissions

- Legal correctness and hallucinated authorities
- Completeness of every cause of action

5 Act

Use outputs to move the matter forward

- Advise clients
- Draft submissions
- Respond to demands
- Prepare for hearing
- Negotiate Deeds of Settlement

6 Test Judgment

Use AppealCheck to identify Appeal Points

- to identify error of law on the face of the record
- to identify incomplete reasoning
